THE PROPOSALS

The sole Resolution before the Meeting seeks the approval of the Shareholders to the issue by the Company of up to 12,000,000 Options.

The Resolution is an ordinary resolution and will be approved by majority vote of the Shareholders present at the Meeting and voting on the Resolution.

WHY THE MEETING IS BEING HELD

Resolution 1 – Approval of the issue of Options

Background

The Company is involved in a number of initiatives to expand the scope of its existing business operations and investment activities in PRC and, for those purposes, it needs to raise additional working capital. In particular, the Company is seeking to pursue further investment in expanding its investment interests in mining, processing and trading of minerals.

The Resolution is proposed for the purpose of facilitating the raising of the new capital. The Resolution, if

approved by the Shareholders, will permit the Company to issue up to 12,000,000 Options at an issue price of A\$0.05 per Option.

Each Option will entitle the holder to subscribe for one Share on payment of an exercise price of A\$0.44 at any time prior to the expiry date of the Option (that being the fifth anniversary of the date of the Meeting). The Options will be issued to professional and sophisticated investors comprising business acquaintances and contacts known to the Chairman and Chief Executive Officer of the Company and who have been nominated by the Company.

It is not intended that any recipient of Options, if the Resolution is approved, will be a Director, an associate of a Director or other related party of the Company.

If the Resolution is approved by the Shareholders at the Meeting, the Company intends to immediately approach professional and sophisticated investors comprising business acquaintances and contacts known to the Chairman and Chief Executive Officer of the Company for the purpose of raising the required new capital. It is expected that the subscription for up to 12,000,000 Options will be completed shortly following the Meeting.

Why is shareholder approval being sought?

Listing Rule 7.1 provides that an ASX listed company must not issue or agree to issue equity securities, without the prior approval of its shareholders, if the number of equity securities issued (or agreed to be issued), when aggregated with the number of equity securities issued by the company during the previous 12 months, would exceed 15% of the total number of ordinary shares on issue in the company at the commencement of that 12 month period.

An issue by the Company of 12,000,000 Options would involve the issue of new equity securities constituting in excess of 15% of the total number of Shares on issue in the Company. As such, the approval of the Shareholders of the issue of the Options is required under Listing Rule 7.1 before that issue can take place.

Further, by obtaining the approval of the Shareholders to the issue of the Options, there is an added benefit to the Company in that, when those Options are issued, they will not count within the 15% limit when determining compliance by the Company with Listing Rule 7.1 over the next 12 month period. Accordingly, if the Resolution is approved, the Company will be permitted to issue up to 12,000,000 Options (within the 3 month period following the Meeting) without impacting the ability of the Company to subsequently issue securities up to the 15% limit in the next 12 month period.

In that way, Shareholder approval of the new issue will permit the Company to raise any additional working capital that may be needed, up to the full 15% limit under Listing Rule 7.1, in the coming 12 month period as and when it is needed and to do so without the requirement for Shareholder approval. This ability to issue new Shares (or other securities convertible into Shares) provides the Company with flexibility and an ability to undertake new initiatives and investment opportunities as and when they arise.

The Company does not believe there are any material disadvantages to the Company and Shareholders if the Resolution is approved. The Company notes that the aggregate sum of the issue price and exercise price of the Options is equivalent to the last sale price of the Shares traded on ASX. The Shareholders may be disadvantaged by the time period in which the Options may be exercised and, if the Options are exercised, the resulting Shares may be issued at less than the then trading price of the Shares on ASX. Further, if the Options are exercised, the interests of all other Shareholders will be diluted by the issue of the resulting Shares. However, balancing those disadvantages are the fact that:

- investors must pay A\$0.05 per Option upfront;
- as the Options will not be listed for quotation on ASX and the market for the Shares on ASX is illiquid, any benefit granted to the investors in the Options is likely to be more than offset by the illiquidity of the market for the Options and the resulting Shares (if the Options are exercised); and
- exercise of the Options will require the investors to contribute material funds to the Company (which will be to the benefit of the Company's business and all other Shareholders).

It is also possible, if the full 12,000,000 Options are issued to only three (or fewer) investors, that those investors, on exercise of the Options, may then hold significant shareholdings in the Company. The Company notes that it is unlikely that any new investor will, as a result of the proposed issue of Options, be in a position to control or substantially influence the affairs of the Company, noting (in particular) that it is not proposed to offer any investor subscribing for the Options the opportunity of having representation on the Board.

Information concerning the Options

If approved, the Resolution will permit the issue by the Company of up to 12,000,000 Options to professional and sophisticated investors identified by the Company.

Each Option will entitle the holder to subscribe for one Share on payment of an exercise price of A\$0.44 at any time prior to the expiry date of the Option (that being the fifth anniversary of the date of the Meeting).

The issue price of the Options is A\$0.05 per Option.

Listing Rule 7.3 requires the following information concerning the proposed issue of Options under the Resolution be included in the Notice of Meeting:

- Maximum number of securities to be issued or formula for calculating the number of securities the entity is to issue: The maximum number of Options to be issued is 12,000,000.

- Issue / Date / Date by which the entity will issue the securities:

It is expected the Options will be issued to professional and sophisticated investors identified by the Company. It is intended that the Options will be issued selectively as the relevant investors are identified and agree to subscribe for the Options. The Options will be issued progressively in the three month period immediately following the Meeting and, in any event, no Options will be issued to any person later than three months after the date of the Meeting.

- The issue price of the securities

The Options will be issued for A\$0.05 per Option. An amount of A\$0.44 is payable on the exercise of an Option. The final date for exercise is the date 5 years after the date of the Meeting.

- Name of allottees (if known) or the basis upon which allottees will be identified or selected

The Company intends to grant the Options to professional and sophisticated investors comprising business acquaintances and contacts known to the Chairman and Chief Executive Officer of the Company who have been nominated by the Company. It is intended that the Options will be issued progressively. None of the persons to be granted Options will be a Director (or associate of a Director) or other related party of the Company (within the meaning of that term in ASX Listing Rule 10.11).

- Terms of the securities

The principal terms of each Option are:

- Each Option will entitle the holder to be issued one new Share on the payment of the exercise price (i.e. A\$0.44) on or before the final exercise date (see below).
- The issue price of each Option is A\$0.05.
- The final date for exercise of the Options will be the date 5 years after the date of the Meeting (i.e. 3 December 2020).
- The Options may be exercised at any time before the final exercise date.
- If any reconstruction of the issued capital of the Company takes place, the terms of the Options (in particular, the number of Options and /or the exercise price of the Options) will be reconstructed in accordance with the ASX Listing Rules such that, after the reconstruction, no Option holder is either advantaged or disadvantaged, compared to the holders of Shares, by the reconstruction of the Company's capital.
- The Options will be transferable.

- No performance or other vesting conditions will attach to the Options.
- It is not intended that the Options will be listed for quotation on ASX (or any other recognised stock exchange).
- A holder of Options has no right to participate in new issues of securities by the Company without exercising the Option.
- Except as permitted by ASX Listing Rule 6.22, no Option confers a right to a change in the exercise price or a change in the number of underlying securities over which it can be exercised.

The Shares issued on exercise of the Options will rank equally with all other existing Shares from the date of issue.

- Intended use of funds raised

All funds raised by the issue of the Options and by the exercise of the Options, if any one or more of the Options are exercised, will be used primarily by the Company for the purpose of providing additional working capital to fund the Company's existing activities and various initiatives being undertaken by the Company to expand the scope of its business operations and activities in PRC.
